ON-FARM AND COMMUNITY-SCALE SALT DISPOSAL BASINS ON THE RIVERINE PLAIN

BIBLIOGRAPHY OF PUBLICATIONS ON BASINS AND ISSUES ASSOCIATED WITH THEIR USE

Ian Jolly, Evan Christen and Mat Gilfedder

CRC FOR CATCHMENT HYDROLOGY REPORT 00/12
CSIRO LAND AND WATER TECHNICAL REPORT 19/00

July 2000

About this Report

This report presents a bibliography of publications concerned with saline disposal basins, including issues of leakage and drainage associated with basins, and related background material. The publications listed encompass both local and regional saline disposal basins.

This bibliography has been prepared as part of a project carried out by CSIRO Land and Water, in collaboration with the CRC for Catchment Hydrology and other agencies, concerned with the siting, design and management of local saline disposal basins on the Riverine Plain of the Murray-Darling Basin. This three-year project has been in part funded by the Murray-Darling Basin Commission under their Strategic Investigation and Education Program (Project I7034 Managing Disposal Basins for Salt Storage Within Irrigation Areas).

Bibliography

- Alagao, F.B. (1996) Simulation of the transient behavior of a closed-cycle salt-gradient solar pond. *Solar Energy*, 56:3, 245-260.
- Alagao, F.B., Akbarzadeh, A., and Johnson, P.W. (1994) The design, construction, and initial operation of a closed-cycle, salt-gradient solar pond. *Solar Energy*, 53:4, 343-351.
- Anon. (undated) Tile drainage and evaporation basin research project. Department of Food and Agriculture, Victoria, Kerang.
- ANZECC (1999) Australian and New Zealand guidelines for fresh and marine water quality (draft), Vol. 1. The guidelines. Australia and New Zealand Environment and Conservation Council and Agriculture and Resource Management Council of Australia and New Zealand, July 1999, Canberra.
- Ash, L. (1993) Groundwater pumping book for the Shepparton Irrigation Region. Department of Agriculture, Victoria, Shepparton.
- AWQGMW (1992) Australian water quality guidelines for fresh and marine waters. Australian and New Zealand Environment and Conservation Council, November 1992, Canberra.
- Bethune, M., Greenslade, R., and Heuperman, A. (1997) Management of saline drainage water on irrigation farms. In *Proceedings: Murray-Darling Basin Workshop*, Toowoomba, 26-28 August 1997, Queensland Department of Natural Resources, Brisbane, 223-227.
- Charlesworth, A.T., and Narayan, K.A. (1994) Sensitivity analysis of solute transport modelling at Lake Ranfurly, Victoria. Technical Memorandum 94/4, CSIRO Division of Water Resources, Adelaide.
- Creagh, C. (1991) A direct approach to salinity control. *Ecos*, 67; 4-7.
- Christen, E., Wu, Q., Skehan, D., Leaney, F., and Narayan, K. (1997) Developing salt and water balances for on-farm evaporation basins in the Murrumbidgee Irrigation Area. In *Proceedings: Murray-Darling Basin Workshop*, Toowoomba, 26-28 August 1997, Queensland Department of Natural Resources, Brisbane, 142-147.
- Christen, E.W., Singh, J., and Skehan, D. (1998) Geotechnical investigations for siting evaporation basins. Discussion Paper, CSIRO Land and Water, Griffith.
